MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Call from Fred Rhodes (Senate Appropriations Committee) on 26 January 1981 [redacted]

25X1

1. Fred Rhodes called to ask a question about 1981 funding for APEX. We (RMS) had told him we needed [redacted] more than the [redacted] Congress limited us to. He said that he had talked to Senator Stennis, and Pete Bonner talked to Chairman Ted Stevens and that they had no difficulty with granting our request. However, Pete Murphy from the House Appropriations Committee had told Fred that we did not need all the money in 1981 because some of it was for equipment to be purchased in 1982. [redacted]

2. I indicated that APEX was in the Intelligence Community Budget, and that they had action on this request. Even though we were concerned with the outcome, I thought it best that he call Bill Lackman and get an answer to his question. [redacted]
